Euro Display Light Box

Product Features

With the best LED industrial waterproof and ultraviolet-proof SMD 3 in 1 technology to make a super wide viewing angle and a better surface evenness and stability.

RGB deep gray processing to show any color; Support point correction function, ensure the consistency of the color and the brightness in the process of use.

Inner fixed reinforcement plate, tensile and shockproof, auto heat dissipation, make the operating life 10 years.

Front access design allows making any LED panel available from front side, Maintenance simple and quick

With the protection rating of IP65, face any bad weather.

With the professional aviation plug as the connectors ensure the quality and safety.

With the high quality raw material、 mature process and scale production, the quality is ensured.

Complete series, customized to satiny any requirements of customers.
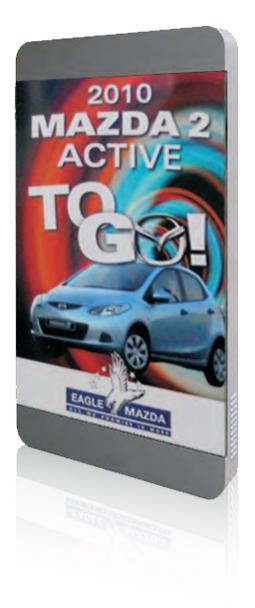

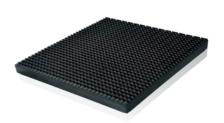

Front maintenance	High IP	High refresh rate	High brightness	High definition	3G wireless

Product Line

MODEL	PITCH	LED MODEL	MODULE SIZE	RESOLUTION	BRIGHTNESS	REFRESH	IP	AVG. POWER
ED-LB-6.6-SMD	6.6 mm	SMD 2020	320X320 MM	48X48 PIXEL	> 6500 NITS	> 1000 Hz	65	180 W/SQM
